

Training

Well-trained personnel are the basis for your success. We won't leave you on your own!

Expand your know-how. Schenck Process GmbH has years of experience in the field of customer training. Our training programs give you a broad basic knowledge of the areas of industrial **weighing, feeding and automation technology** and documentation on the products incorporated. The training takes place in a learning-oriented atmosphere. This atmosphere is encouraged not only by the practically-oriented teaching aids, but also by the small group size.

Regular alternation between lectures and practical exercises with the devices ensures maximum retention. The seminar rooms are equipped with test equipment with control electronics and all the necessary training documentation. Our instructors are specialists with years of experience in weighing, metering and automation technology and convey what they know in a lively, interesting way.

How you will benefit

Only some of the advantages for you at a glance:

- ❖ You will increase **process reliability** by avoiding incorrect operation
- ❖ You will **save costs**, as you and your employees will be able to rectify malfunctions yourselves
- ❖ You will **refresh your expertise** by exchanging ideas with specialists
- ❖ You will **secure your investment** by being able to give your devices optimum care during operation
- ❖ You will avoid costs through **efficient employee training**, thorough **development of expertise** and the **rapid training** of new employees

Target Groups

Specific training for employees in the following areas: operating personnel, service and maintenance personnel, commissioning and design engineers.

OVERVIEW OF THE TRAINING

Weighing and Feeding Electronics

DISOMAT® Satus
 DISOMAT® Opus
 DISOMAT® Tersus
 DISOBOX®
 DISOCONT®
 INTECONT® Satus, INTECONT® Opus
 und INTECONT® Plus
 DISOCONT

Automation

Dispatch automation
 Fieldbus communication
 DISOCONT® Master Touch

Mechanical weighing systems

Function and design
 ❖ Loss-in-weight feeder
 ❖ Mass flow meter
 ❖ Weighfeeder
 ❖ Solid flow meter
 ❖ Belt weigher

Principles

Basic Training Vibrating Technology
 Electromagnetic Compatibility (EMC) and Surge
 Voltage Protection

Customer-specific training

We are always willing to adapt the contents to meet your specific requirements, e.g. for maintenance and service personnel familiar with weighing and feeding procedures who have specific questions concerning particular areas. Simply arrange a meeting in advance to discuss the topics and dates which are right for you (e.g. linking up to IT, function block assignment, EasyServe® or the entire DISOMAT® family).

Give us a call!

Training Venue

Right in the hub of it! Thanks to its central location, Darmstadt is perfect for training courses. Our recently opened TrainingCenter is easy to reach from anywhere in the world via Frankfurt airport. But we don't have to run the training course at one of our global sites, e.g. in England. Naturally, we can also hold a course at your place of business. Our flexibility allows you to make the decision. In our new TrainingCenter you will find a practical training in a professional environment.

Registration

Please register online at www.schenckprocess.com section service/customer training.

You will receive prompt confirmation of your registration.

Fees

360.00 EUR per day and participant.
 Prices do not include VAT.
Please understand that the training course will only take place if a sufficient number of participants registers (min 3 people).

Accommodation

On request, we would happily make a hotel reservation for you.
