

Direct And Without Compromise

Direct Weighing Technology – Accurate Weighing Results With Little Effort

BV-41 GB

Direct weighing technology – the smart Schenck solution. Just bolt the sensor to the construction, and you have a rugged and accurate industrial scale. Versatile, virtually maintenance-free and with highly accurate results even in severe environments. Wherever big weights from 1000 kg and 1000 t are to be acquired. Design, installation and operation are extremely simple and cost-effective thanks to the absence of mounting elements.

- ❖ Flexible solution for many and varied applications
- ❖ Highly accurate weighing in any environment
- ❖ Easy installation, absolutely no maintenance
- ❖ Savings through reduced structural steel costs
