

UK Health & Safety Policy

Schenck Process UK Ltd* are market leaders for solutions in measuring and process technologies in industrial weighing, feeding, conveying, screening & automation. We recognise that effective Health and Safety management is an integral part of our business operations.

We are fully committed to:-

1. The prevention of injury, ill health continuous improvement in Health & Safety management / performance, as far as is reasonably practicable.
2. Complying, as a minimum, with all applicable legislation, other codes of practice, standards or requirements as required by our Clients.

We pursue this commitment by

-  Providing adequate resources that contribute to a safe and healthy working environment.
-  Providing appropriate training, information and supervision to ensure that personal responsibilities are discharged in a safe, reliable and competent manner.
-  Managing our Health and Safety risks through the provision of appropriate working conditions, work equipment, information and systems of work.
-  Ensuring accidents, incidents and near misses are reported, with lessons shared to help prevent a reoccurrence.
-  Embedding Health and Safety considerations into our design and project management activities.
-  Promoting a vibrant safety culture through effective communication & participation; sharing knowledge and industry best practice.
-  Monitoring our performance against our stated objectives and targets; thereby continually improving the effectiveness of our management system.
-  Communicating this Health & Safety Policy and company practices to all people working for, and on behalf of the organisation.

This Policy is reviewed on an annual basis, last reviewed in January 2019.
