Training

Product Training

Well-trained personnel are the basis for your success. We won't leave you on your own!

Get to know them better - the **DISOBOX[®]** and the **DISOPLAN[®] software**.

The optimum product combination for preventative maintenance and diagnosis of static industrial scales.

DISOBOX[®] – a milestone in the development of weighing electronics. An intelligent A/D convertor unit which displays and evaluates the total weight and weight proportion of every single load cell for discontinuous scales.

Overview

Design of the DISOBOX[®]

- ❖ Device Description

Function Variants

- ❖ Fieldbus On/Off
- ❖ Crane Scales
- ❖ Bin Weigher
- ❖ Multi-Channel Application

Operation at the Scales

Combined with

- ❖ DISOMAT[®] Tersus
- ❖ DISOVIEW[®]

Configuration and Analysis

- ❖ Automatic monitoring
- ❖ DISOPLAN[®] (Software Tool)

Data Transmission

- ❖ Serial Communication
- ❖ Fieldbus Connection
- ❖ Ethernet

Target Group

Specific training for employees in the following areas: operating personnel, service and maintenance personnel, commissioning and design engineers.

Duration

1 Day (08.30 – 16.30)

Individual Requests:

We are always willing to adapt the contents to meet your specific requirements. Develop a training program together with us that meets those requirements.

Aim

Expand your know-how. Schenck Process GmbH has collected years of experience in the field of customer training. Our training programs give you a broad basic knowledge of the areas of industrial weighing, feeding and automatization technology. The training takes place in a learning-oriented atmosphere. This atmosphere is encouraged not only by the practically-oriented teaching aids, but also by the small group size.

- ❖ You will learn the theoretical principles behind the DISOBOX[®] A/D converter unit.
- ❖ You will discuss how the individual components work
- ❖ You will become familiar with the optimum settings for a perfect function
- ❖ You will localize the causes of malfunctions
- ❖ You will rectify malfunctions

Regular alternation between lectures and practical exercises with the devices ensures maximum retention. Our consultants are specialists with years of experience of scales, feeding and automatization technology. They impart their knowledge in a practice-oriented and spirited manner.

How You Will Benefit

Only some of the advantages for you at a glance:

- ❖ You will increase **process reliability** by avoiding incorrect operation
- ❖ You will **save costs**, as you and your employees will be able to rectify malfunctions yourselves
- ❖ You will **refresh your expertise** by exchanging ideas with specialists
- ❖ You will **secure your investment** by being able to give your devices optimum care during operation
- ❖ You will avoid costs through **efficient employee training**, thorough **development of expertise** and the **rapid training** of new employees

General Notes

Training Venue

Our flexibility offers you a wide selection. Arranging to have the training performed in one of our agencies around the world, such as the newly-opened and newly-expanded Test and Training Center in Darmstadt, is just one of the possibilities on offer. Naturally, we can also hold the training **in your place of business**.

Registration

We would ask you to register by using the accompanying preprinted "Training Program Registration" fax form, or in the Internet at www.schenckprocess.com under Service/Customer Training. You will receive prompt confirmation of your registration.

Fees

The daily rate is given on the overview page. *We hope you appreciate that we can only hold a training program when a sufficient number of participants registers (3 people). In order to guarantee maximum benefit to the participants, the maximum group size is 6 people.*

Hotel

We would be happy to place a hotel reservation in your name if you should so wish.

Further Questions

If you have any **queries** we can be reached at:
T: +49 6151-1531-3111,
F: +49 6151-1531-1336
training@schenckprocess.com

Customer-Specific Training Program

We would be glad to make you a quotation.
